## Latest Work Study Student Researcher Jobs

Office of Research and Creative Activity

### The scoop of the day

The latest open positions

The Wong laboratory in the Biology Department - 10 hours/week, \$10/hour

Assist with implementation and conduction of scientific experiments related to learning and memory. Once trained, the successful candidate will work semi-independently to set up and conduct learning and memory assays. Duties will include learning and executing computer scripts, troubleshooting experimental preparations, and data collection and organization. Contact Dr. Ryan Wong at [rwong@unomaha.edu](mailto:rwong@unomaha.edu)

Sociology and Anthropology - 10 hours/week, \$15/hour

Curating and assembling a database. Basic Knowledge of Excel. Currently enrolled undergraduate or graduate student. For undergraduate students, with a preference for those who have already taken research methods classes or statistics. Contact Dr. Lisette Aliaga-Linares at [laliagalinared@unomaha.edu](mailto:laliagalinared@unomaha.edu)

Marketing and Entrepreneurship - 10 hours/week, \$15/hour

Support the research project titled "Is 'Integrated Communication' A Myth?" The project utilizes the content analysis technique to evaluate the information contained in consumer advertising by brands. Coordinate, schedule, and keep track of the data collection process. Create a list of content analysis technologies and compare them. Contact Dr. Arvind Agrawal at [aagrawal@unomaha.edu](mailto:aagrawal@unomaha.edu)

No need to hassle with walking to your car, driving (gas prices!) and traffic: work on campus to save time (time is money!), earn decent pay and learn valuable skills that will make you more marketable after graduation.
